Myocardial Damage

By David W. Holt

Springer Aug 1998, 1998. Buch. Book Condition: Neu. 235x155x18 mm. This item is printed on demand - Print on Demand Neuware - The spectrum of unstable coronary syndromes has been the object of steadily increasing research particularly in respect of novel diagnostic and treatment modalities. Although the WHO criteria for the diagnosis of acute myocardial infarction have been known for decades, there is still much debate as to the proper use of these, especially the handling of biochemical markers. Traditional enzymes have limitations in diagnostic power and new markers have unclarified applicability with regard to standardisation of assays and decision limits. Furthermore, the growing understanding of the conception of minimal myocardial damage in the borderzone between unstable angina pectoris and myocardial infarction necessitates refinement in the definitions of the various entities within the kaleidoscope of acute myocardial ischaemia. There has been a strong impetus within the European Society of Cardiology to present this subject to a broad audience of cardiologists, and as a consequence the theme of biochemical markers has become an important constituent of the Education and Training Programmes of the Society. This book has fundamental implications for the overall comprehension of this complex area. This book on myocardial...
