Science of Thought Press Ltd. Paperback. Book Condition: new. BRAND NEW, The Power of Thought (9th Revised edition), Henry Thomas Hamblin, The power of thought is an amazing energy which mankind has at its disposal. The world today is in its present state simply as a result of mankind's collective thinking; each nation is in its present state of either peace and prosperity, poverty, murder and anarchy, simply as a result of its thinking as a nation; and each individual's quality of life is the result of their thinking. What a person thinks is the mainspring of all their actions. The power of thought can make the unsuccessful successful in the battle of life. It is the power which can make the loftiest achievement possible. It is the power by which difficulties can be overcome, disadvantages of birth and parentage surmounted, and the life beautified and inspired and energised with God-given powers. In this small book Hamblin shares with the reader his experience and insights into the nature of thought. It is hoped that the many insights contained within will assist the reader to come into harmony with the Divine Idea. When this is accomplished, life will blossom like the rose, "he shall be led forth with peace; the mountains and the hills shall break before them into singing, and all the trees of the field shall clap their hands."
