*A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. Its been designed in an exceptionally easy way and is particularly merely right after i finished reading this ebook where in fact changed me, change the way i think.*

This item is printed on demand - Print on Demand Neuware - Essay from the year 2005 in the subject Business economics - Operations Research, grade: A+, University of Otago (Department of Management), course: Business Policy, 61 entries in the bibliography, language: English, abstract: 'The driving force of capitalism is the attainment of increasing rates of surplus value. This is inevitably exploitative and demeaning of the human condition. This makes an increased awareness of ethics in business practise untenable. Discuss.' The statement comprises of three arguments, or, more specifically, one argument and two consequences. They consist of the type argument 'if A then B' and 'if A and B then C'. In addition there is the request to 'discuss' in the statement. 'Discuss' could only apply to 'C'. In this case 'A' and 'B' would be taken for granted. I cannot easily accept this so I apply 'discuss' to 'A', 'B' and finally 'C' and approach each phrase separately. So I can reveal that 'if A and B then C' is only true under prior assumptions made about 'A' and 'B'. Chapter A deals with 'A', capitalism. Here I will provide a definition of capitalism containing its characteristics and effects and arrive at the answer as to whether 'increasing rates of surplus value' are the 'driving force of capitalism'. Chapter B shall examine whether capitalism 'is inevitably exploitative and demeaning to the human condition'. But before the terms 'exploitation', 'demeaning' and 'human condition' are discussed, they need to be defined. This chapter contains an analysis how 'capitalism' and 'humans' interact and interfere each other. Chapter C works on 'untenable (business) ethics'. Ethics, business ethics and their significance for 'humans' and 44 pp. Englisch.
