We must now return to the consideration of the equations fr li among the elements of M, which define a system of collineations within Gs having the first group property; and we shall apply the results of Theorem 9 to these equations. Let the three sets of cogredient variables be respectively the elements of the three rows of the matrix Mt let B, etc. , ) be a complete family of automorphic forms in the elements of the rows of Mt and let pi be transformed by U. Since the matrix of U is the conjugate of the matrix of M, the coefficients of each of the transformed forms , , will reproduce in the elements of the rows of M the original forms in the rows of Mt. Equating corresponding coefficients of the original and transformed forms we have a set of...
